## New Brandy By Lievore Altherr Molina

Upholstered armchairs and lounge chairs with a structure covered in flexible foam. The armchair version is available in five different bases: cantilever, sled base, four steel legs or four beech wood legs and a central swivel base with 4 legs of oak plywood.

## New Ronda By Lievore Altherr Molina

Armchairs with an oak wood shell or upholstered with flexible foam. Available with one of many diverse steel bases (four legs, sled base, central base with crossed legs or wheels) or wood bases. It is characterized for its great comfort and larger dimensions. Adaptable for the home and all public and professional settings. Ideally for use in offices and in work spaces as visitor seats, in conference rooms or collective seating (meeting rooms in hotels and restaurants).

## Lottus barstool (wood)

A series of barstools, with the seat and backrest composed of injected polypropylene frames, and the possibility of combining colours and plastic or textile finishes. These are mounted on different metallic bases: with four castor wheels, a central support and castor wheels, or on a fixed support, the last two types come in two heights. And since 2013 is also available with wood structure. The versatility resulting from these combinations make Lottus an ideal choice for a wide range of situations, whether in the office or at home.

## Lottus chair (wood & high)

Lottus Chair designed by Lievore Altherr Molina following the lines and the style of the Lottus stool. This seats program is made up of injected polypropylene bench formed by a single frame combining colour and upholstery on the seat. The design allows it to be mounted on several painted metal tube structures with a stackable 4 leg base, stackable sledge base and swivelling central leg, as well as a 4 leg chair with arms and without, with wheels, as well as 3 different types of armrests: steel, aluminium and wingshaped armrest. In the 2010 the family was extended with the new version Lottus Spin, a 4 leg base fixed or swivelling and the children's version. And since 2011 the Lottus chair is also available with integral upholstered frame and oak veneer frame.

## Lottus chair (office)

In 2012 are added the versions of high-back chair, new aluminium base for the office chair, wood structure and 2D an 3D wood frame.

## Way table

**Way**, Josep Llusçà design, is a modular system tables, height adjustable and demountable archive furniture specially designed to offer versatile solutions to the contract sector and the home office, in order to meet the needs of such diverse areas as operational office, management offices, meeting or training rooms, canteens, libraries, etc. Furthermore, Way also fits the hotel equipment and outdoor spaces, as all materials used are stainless; aluminium, polypropylene, compact laminate and glass.

The main structure is made in extruded aluminium profile as well as the legs, providing lightness to the new design and, ease of composition solutions. The top is made of melamine, laminate, glass and also customizable according to customer needs. It has different accessories to complete multiple composition possibilities...

**KriskaDECOR®**  
Cool curtains for hot places

## NEW RANGE OF COLOURS

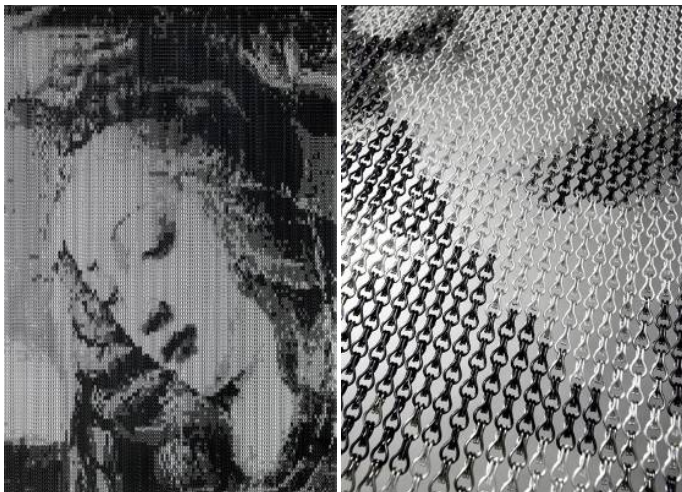

KriskaDECOR wants to introduce warm and elegant tones that soften the metallic reflexes of the designs.

There are five new colours:

3 shades of pink (charm pink, pink and pale pink)  
Orange apricot  
Black coffee brown

This is the first step towards a generous colour palette that allows more variety, complexity and elegance in designs. This new spectrum conveys softness, warmth and subtle distinction to the curtains and increases options for creative design.

## NEW DESIGNS, READY TO HANG: BOTTI BLACK&WHITE

Just like a piece of textile, KriskaDECOR's metal curtains can be embellished with any design you desire and can be totally customised by our Contract division. Recently KriskaDECOR has produced a collection of decorative curtains designed by Claire Davies. They come in two standard sizes (2.5m by 0.9m and 1.35m by 1.80m) and are easy to hang in any environment.

Botti Black&White is one of the designs that forms part of the Classic collection. Others, such as Country, Luxury and Gypsette offer diverse designs for all sorts of environments.

## SHAPING SILESTONE® BY CAMPANAS

Created by renowned Brazilian designers, Fernando and Humberto Campana, Shaping Silestone is a modular piece of furniture, which combines conceptual and sculptural ideas. Inspired by the idea of a Swiss army knife, the design consists of three main components that transform into a multi-functional furniture unit.

The project is made from the world leading quartz worksurface, Silestone by Cosentino and features the Silestone Integrity sink by Cosentino. The front panels of the design are made from a fine hardwood veneer from a walnut tree that was cut more than a half a century ago.

This is the second time that Cosentino has worked with Fernando and Humberto Campana, two renowned experts in the world of international design. In 2010, they jointly presented the project "Campanas for eCosentino" at Milan Design Week. This project was an artistic interpretation of the recycled surface ECO by Cosentino®, which toured the main European design fairs.

## KETTAL

PARK LIFE & JASPER MORRISON

*"This is my first outdoor collection and it has taken some time to get here: about four and a half years! It probably took that long because we needed to discover the right codes for Outdoor Furniture which is a category apart from other types of furniture. It has been an interesting process and we have been through many prototypes to get here but I think the result justifies the effort."*

Park Life is a complete family of furniture for outdoors, whose clean cut profile is adaptable to a wide range of different situations. Lightweight, yet extremely durable, it's easily stacked for transport or winter storage and its technical sophistication and careful consideration of ergonomics besides a lot of care over how it looks are all intended to ensure a long life, both structurally and visually."

by:  **Planning Sisplamo**

## NAGOYA (Designer: JOAN GASPAR)

Lecture lectern with a core made of roto-moulded polyethylene. Its force defines the interest in providing the space with a personal image. Includes technological applications and microphone options. Height-adjustable and with a customizable body and base. Also available in upholstered or lacquered versions.

## SENDAI (Designer: JOAN ROJESKI)

A mail box with key and sided tray for documents/catalogues, this designed and innovating product is made to co-working spaces, multi offices building, houses, hotels employees or guest...

## PERTH (Designer: STOKKEAUSTAD)

Planning board with 432 magnet pieces to make multiple colour combinations, as well as personalising each day with a picture or any element to remember the special day. Also available with a white metallic board in two different sizes.

## OSAKA (Designer: MAR VAILLO)

Writing board for lecture or meeting rooms. The freestanding version with a high-tech image and a wooden surface makes it suitable for any environment. Foldable to occupy minimum space and height-adjustable, thus making its use and transport much easier. The wall-mounted version provides for a special aesthetic image due to its slender board.

## SANCAL

### Float by KARIM RASHID

Float is a contemporary divan designed for multiple uses. This slim floating seat with built wall, gives us total privacy in an open environment to sit back, hang the scarf and coat, or just wait in the booth that has enormous support.

### Party by LUIS ESLAVA

"Don't seat, party!" is the motto of this modular product that provides new ways of living around the couch. Sitting at different levels and reach out for the conquest of land becomes a new experience because we can break barriers and interact smoothly. We can also expand the seating easily.

## VONDOM®

NEW COLLECTION 2013

### 1) Sloo Collection by Karim Rashid for VONDOM

**Sloo** creates a state between liquid plastic and solid material object.

Plastic loves to flow, to be amorphous. We too are amorphous so the relationship is symbiotic. The results are organic forms that softly translate into and out of flat planar surfaces.

### 2) Frame Collection by Ramon Esteve for VONDOM

**Frame** was born from looking for serene and timeless shapes using elementary geometry. The result are solid pieces with light appearance, offering at the same time the maximum comfort thanks to its ergonomic design.

### 3) Daybed Faz by Ramon Esteve for VONDOM

The **FAZ** family is growing and growing. VONDOM now enters into the world of sunshade with **Daybed**, an elegant and comfortable sunbed with a double function for outdoor. Despite the large family of this collection; table, sofa, sun lounger, bank, chair, flowerpot... his creator, the architect Ramón Esteve has designed this new element, thinking about the sensation to have an ideal bed, for relaxing, sunbathing and enjoying in the open air, under a sunshade which protects from the harmful rays.

**VONDOM®****4) Peacock Collection by Eero Aarnio for VONDOM**

The master **Eero Aarnio** creates his first piece for **VONDOM**. It is without doubt a unique element for its amusing and symbolic design, **Peacock Collection**. Eero's home was very close to the Helsinki zoo, which is located on an island where the peacocks. Such memories are the inspiration of the creation of this new planter with much symbolism for Eero which naturally named "Peacock", thus emerging their "beak to beak" with this figure of his childhood.

**5) CHRISMY by Teresa Sapey for VONDOM**

Inspired in natural, organic and elegant shapes that rise towards its peak in each of its silhouette to-and-fro movement. Its interior lighting creates a true enveloping atmosphere to be able to enjoy them in different spaces. A renewed classic, refined in its timeless modernity, easily adaptable. Pure visual magic achieved through its logical continuation.

**6) AGATHA by Agatha Ruiz de la Prada by VONDOM**

The freshness, innocence and spontaneity reaches **VONDOM** by the hand of the collection **AGATHA** by **AGATHA RUIZ DE LA PRADA**, the first Kids collection of **VONDOM**. The characteristic icons of the designer, perceived instantly by their simple, sweet and refined shapes. A funny, creative and optimistic composition integrated throughout infantile codes: flowers, hearts... This Kids furniture collection consists of two basic elements, mini table and chair. A flower with large petals is the result of this mini table which is accompanied by heart-shaped stools.
